

every year every distance polluted atmospheric pressure

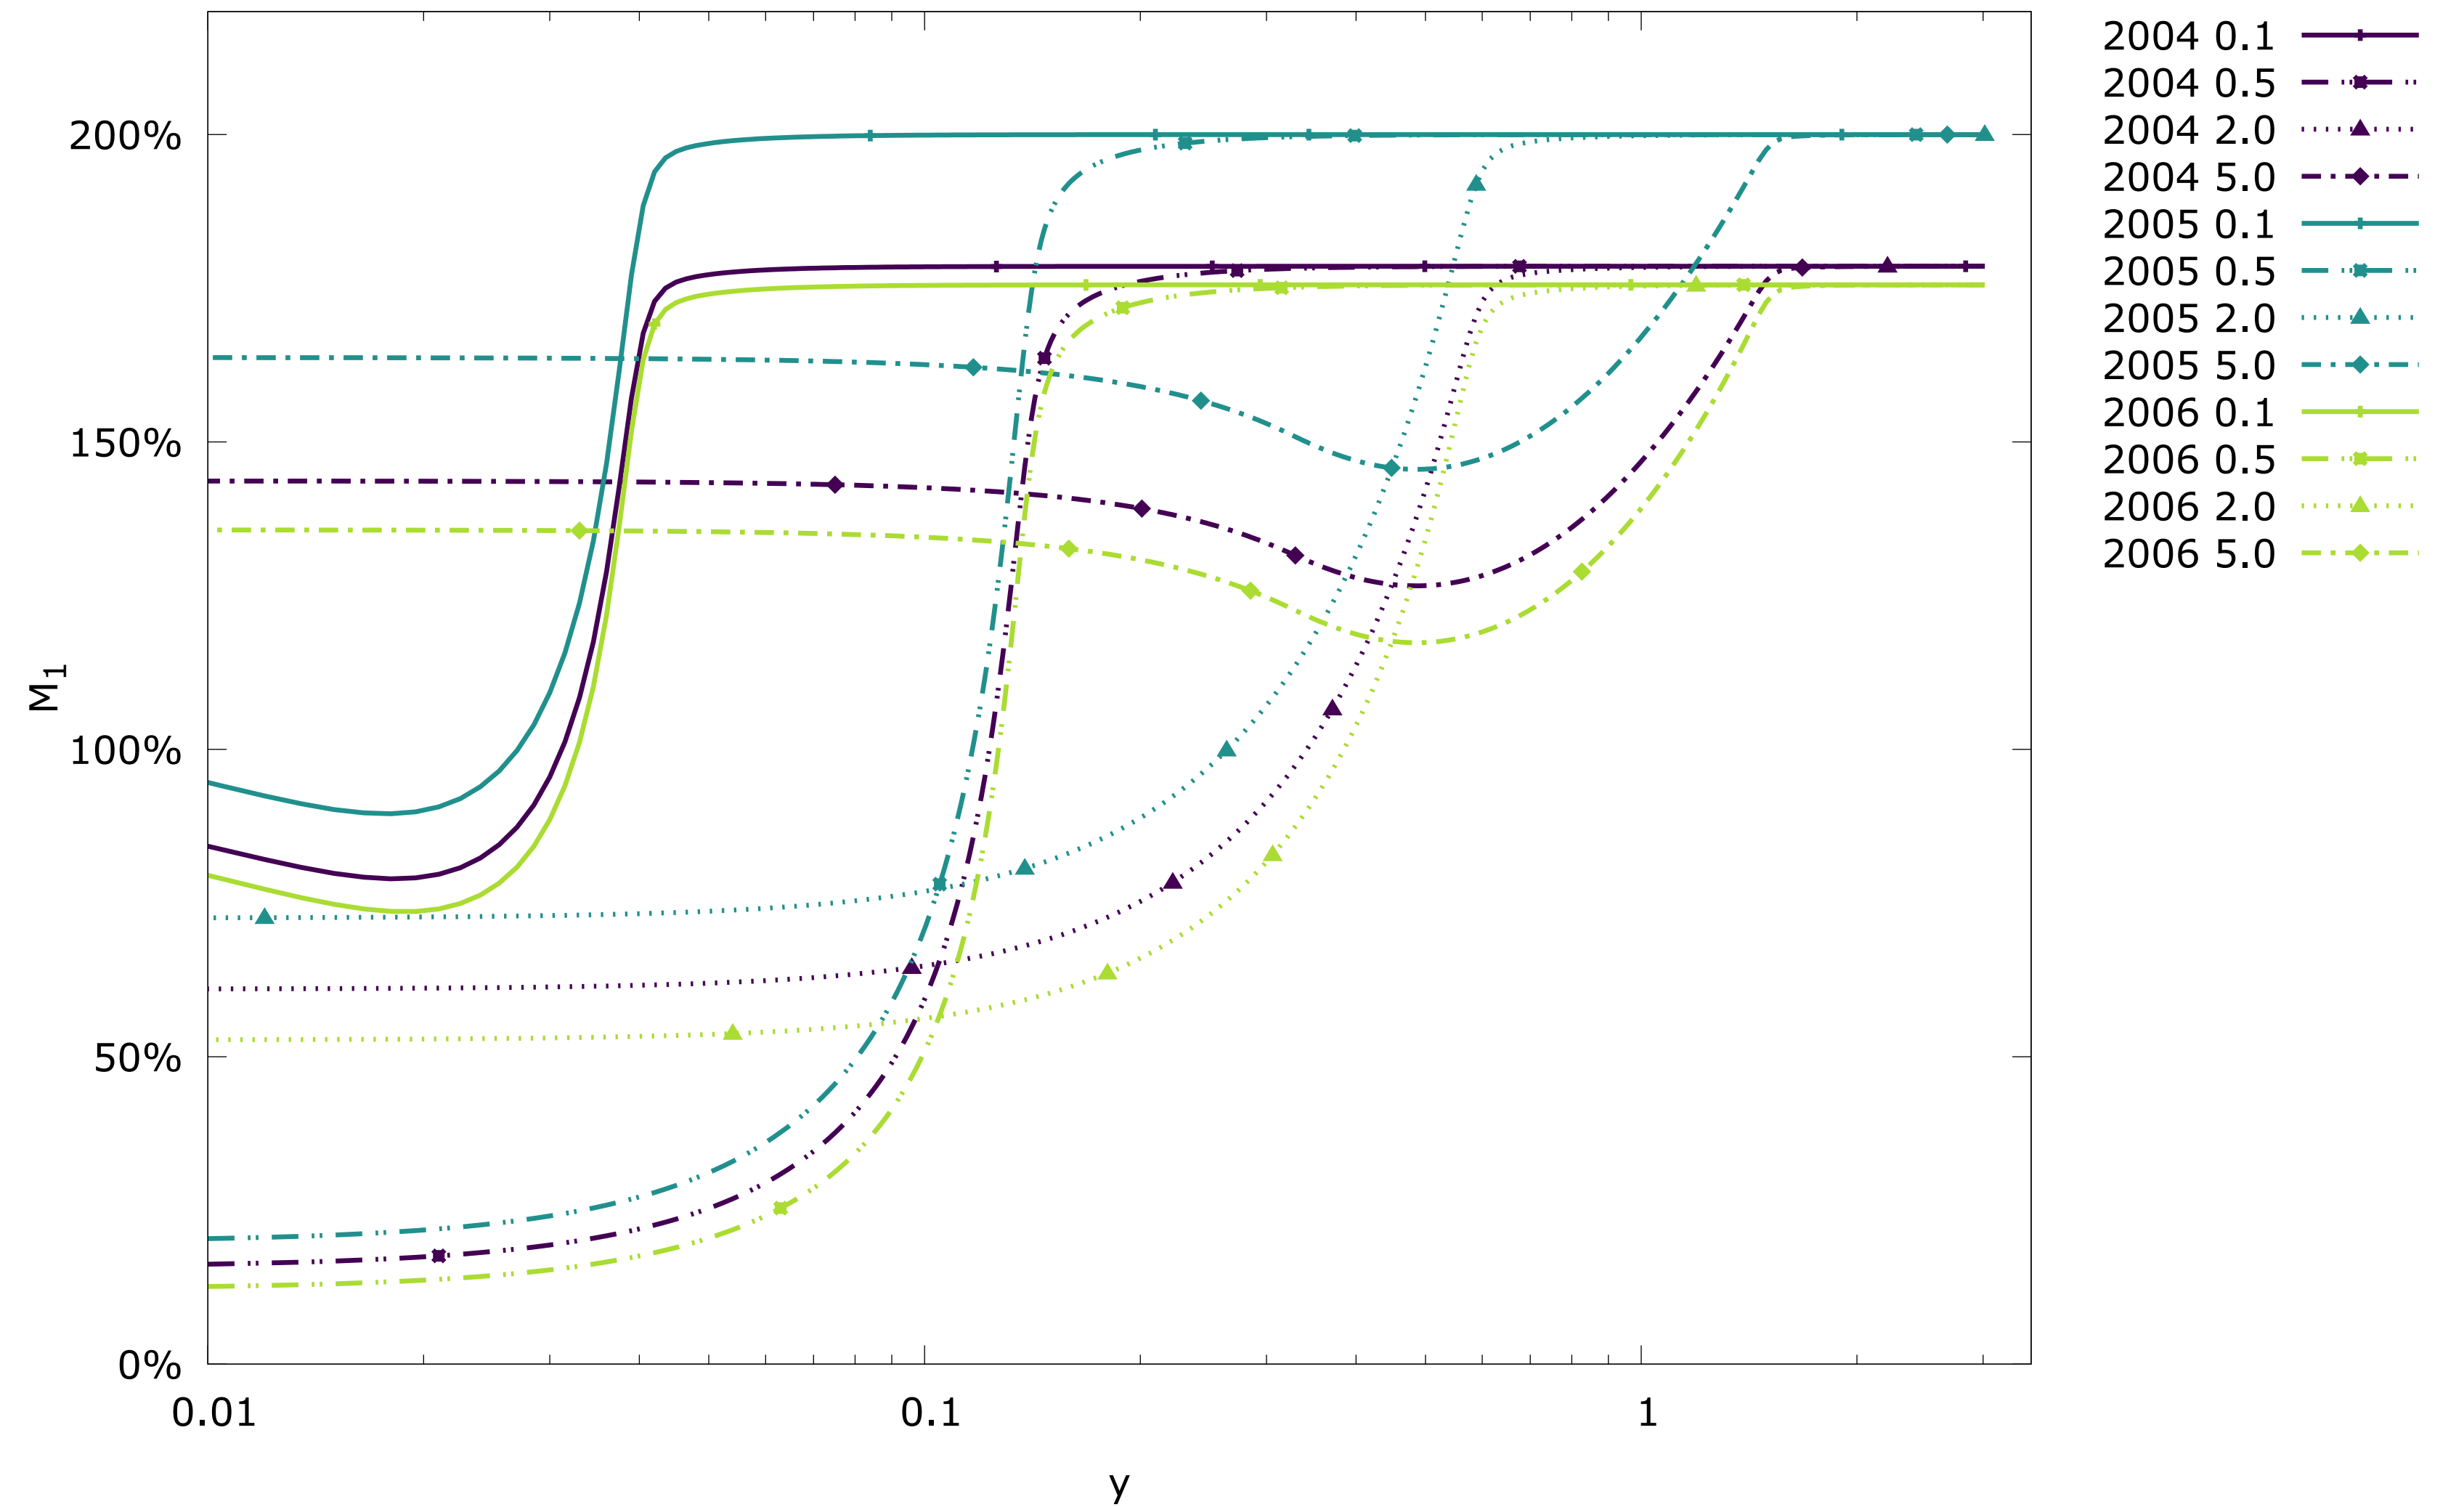

every year every distance polluted concentration of sulfuric

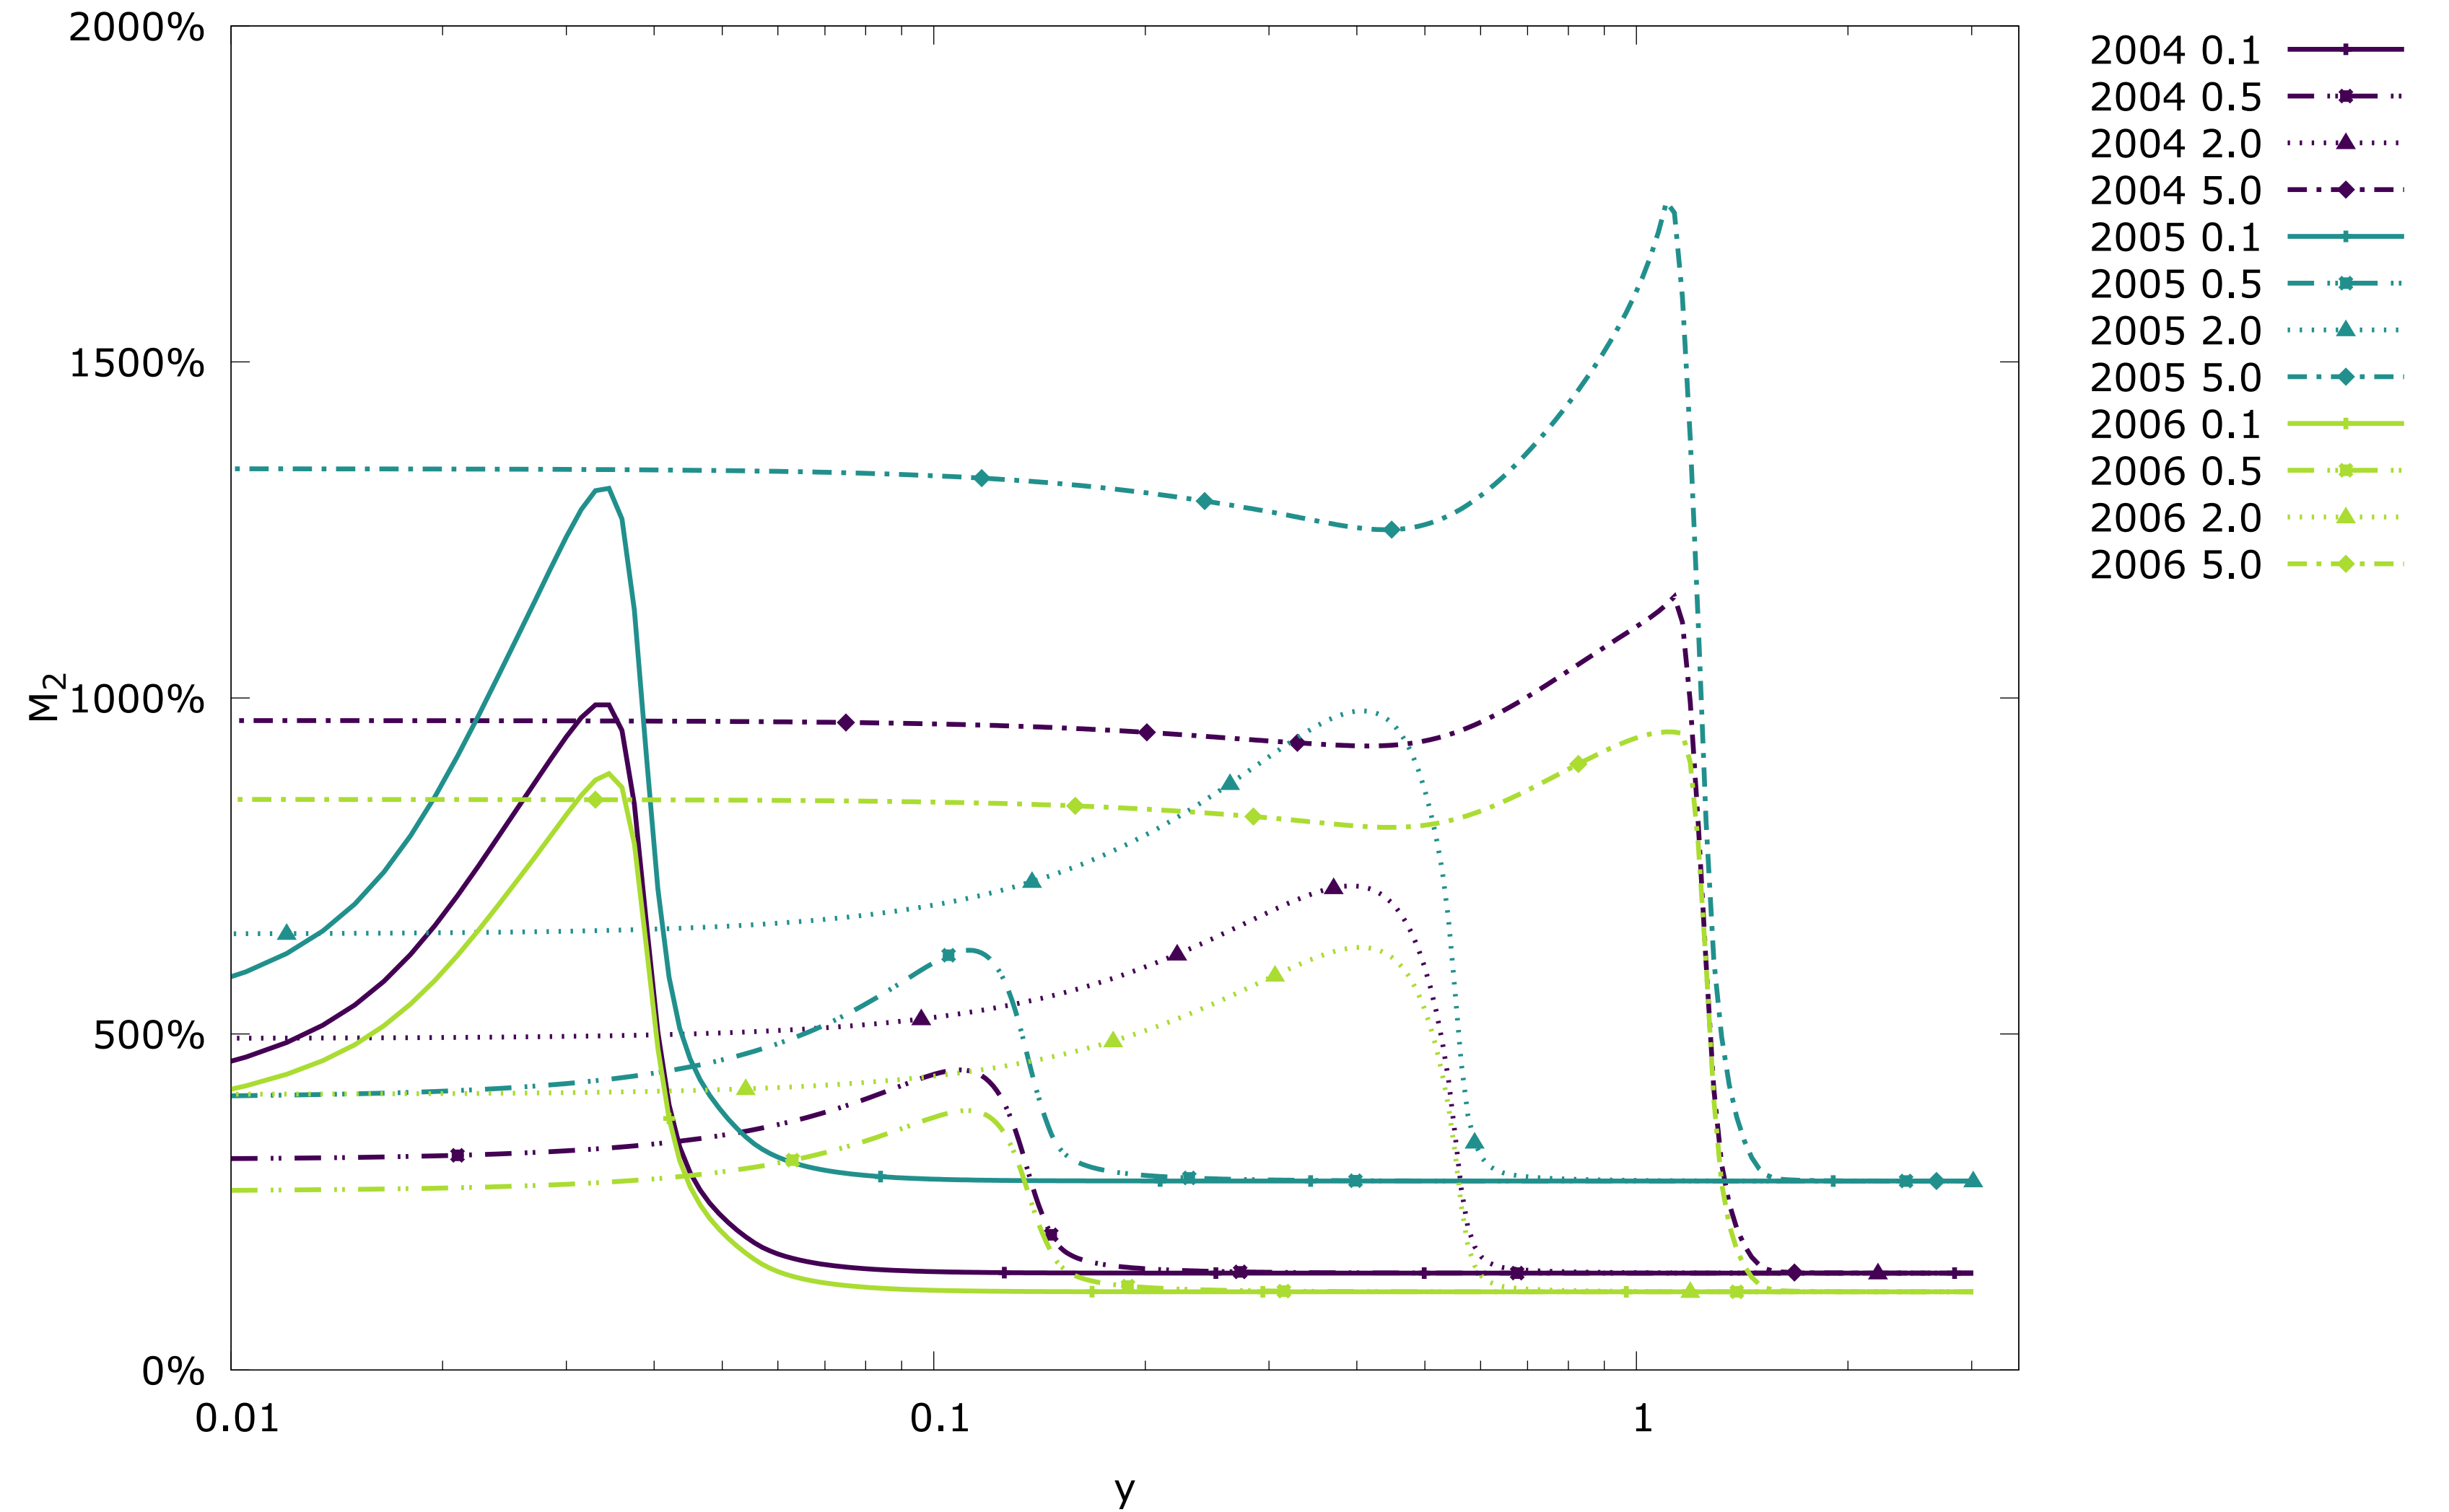

every year every distance polluted  $M_0$

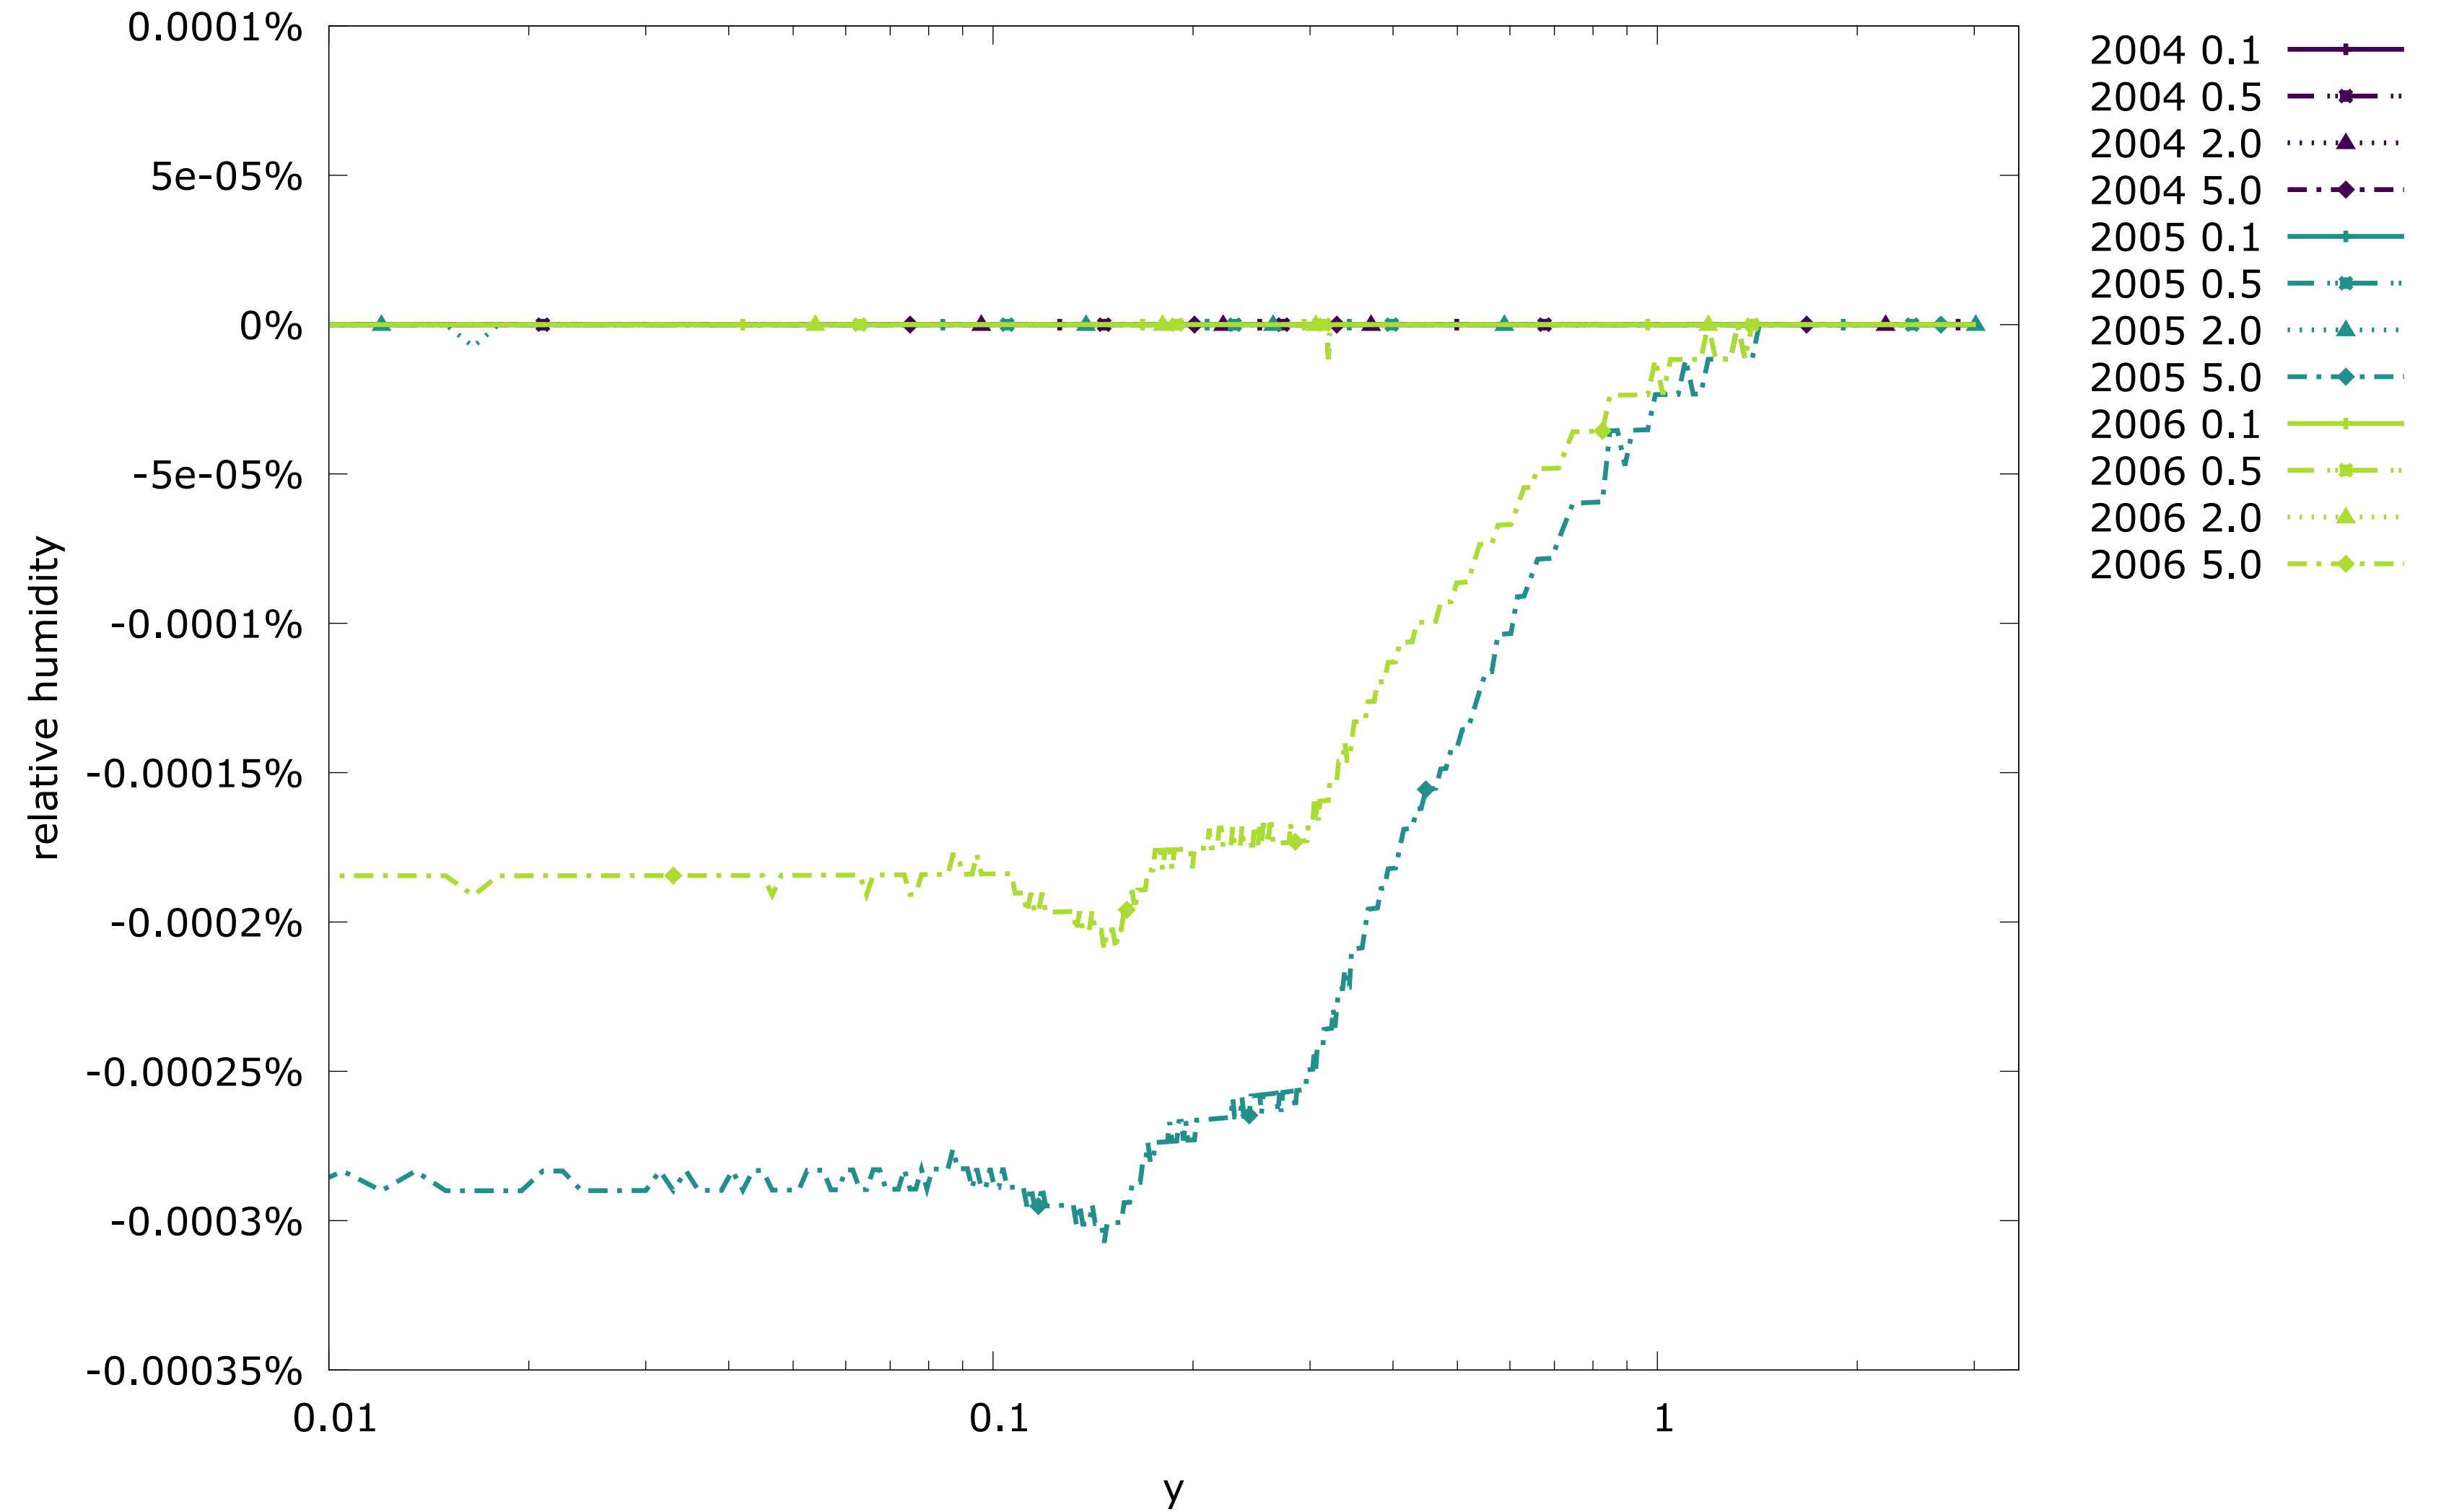

every year every distance polluted  $M_1$

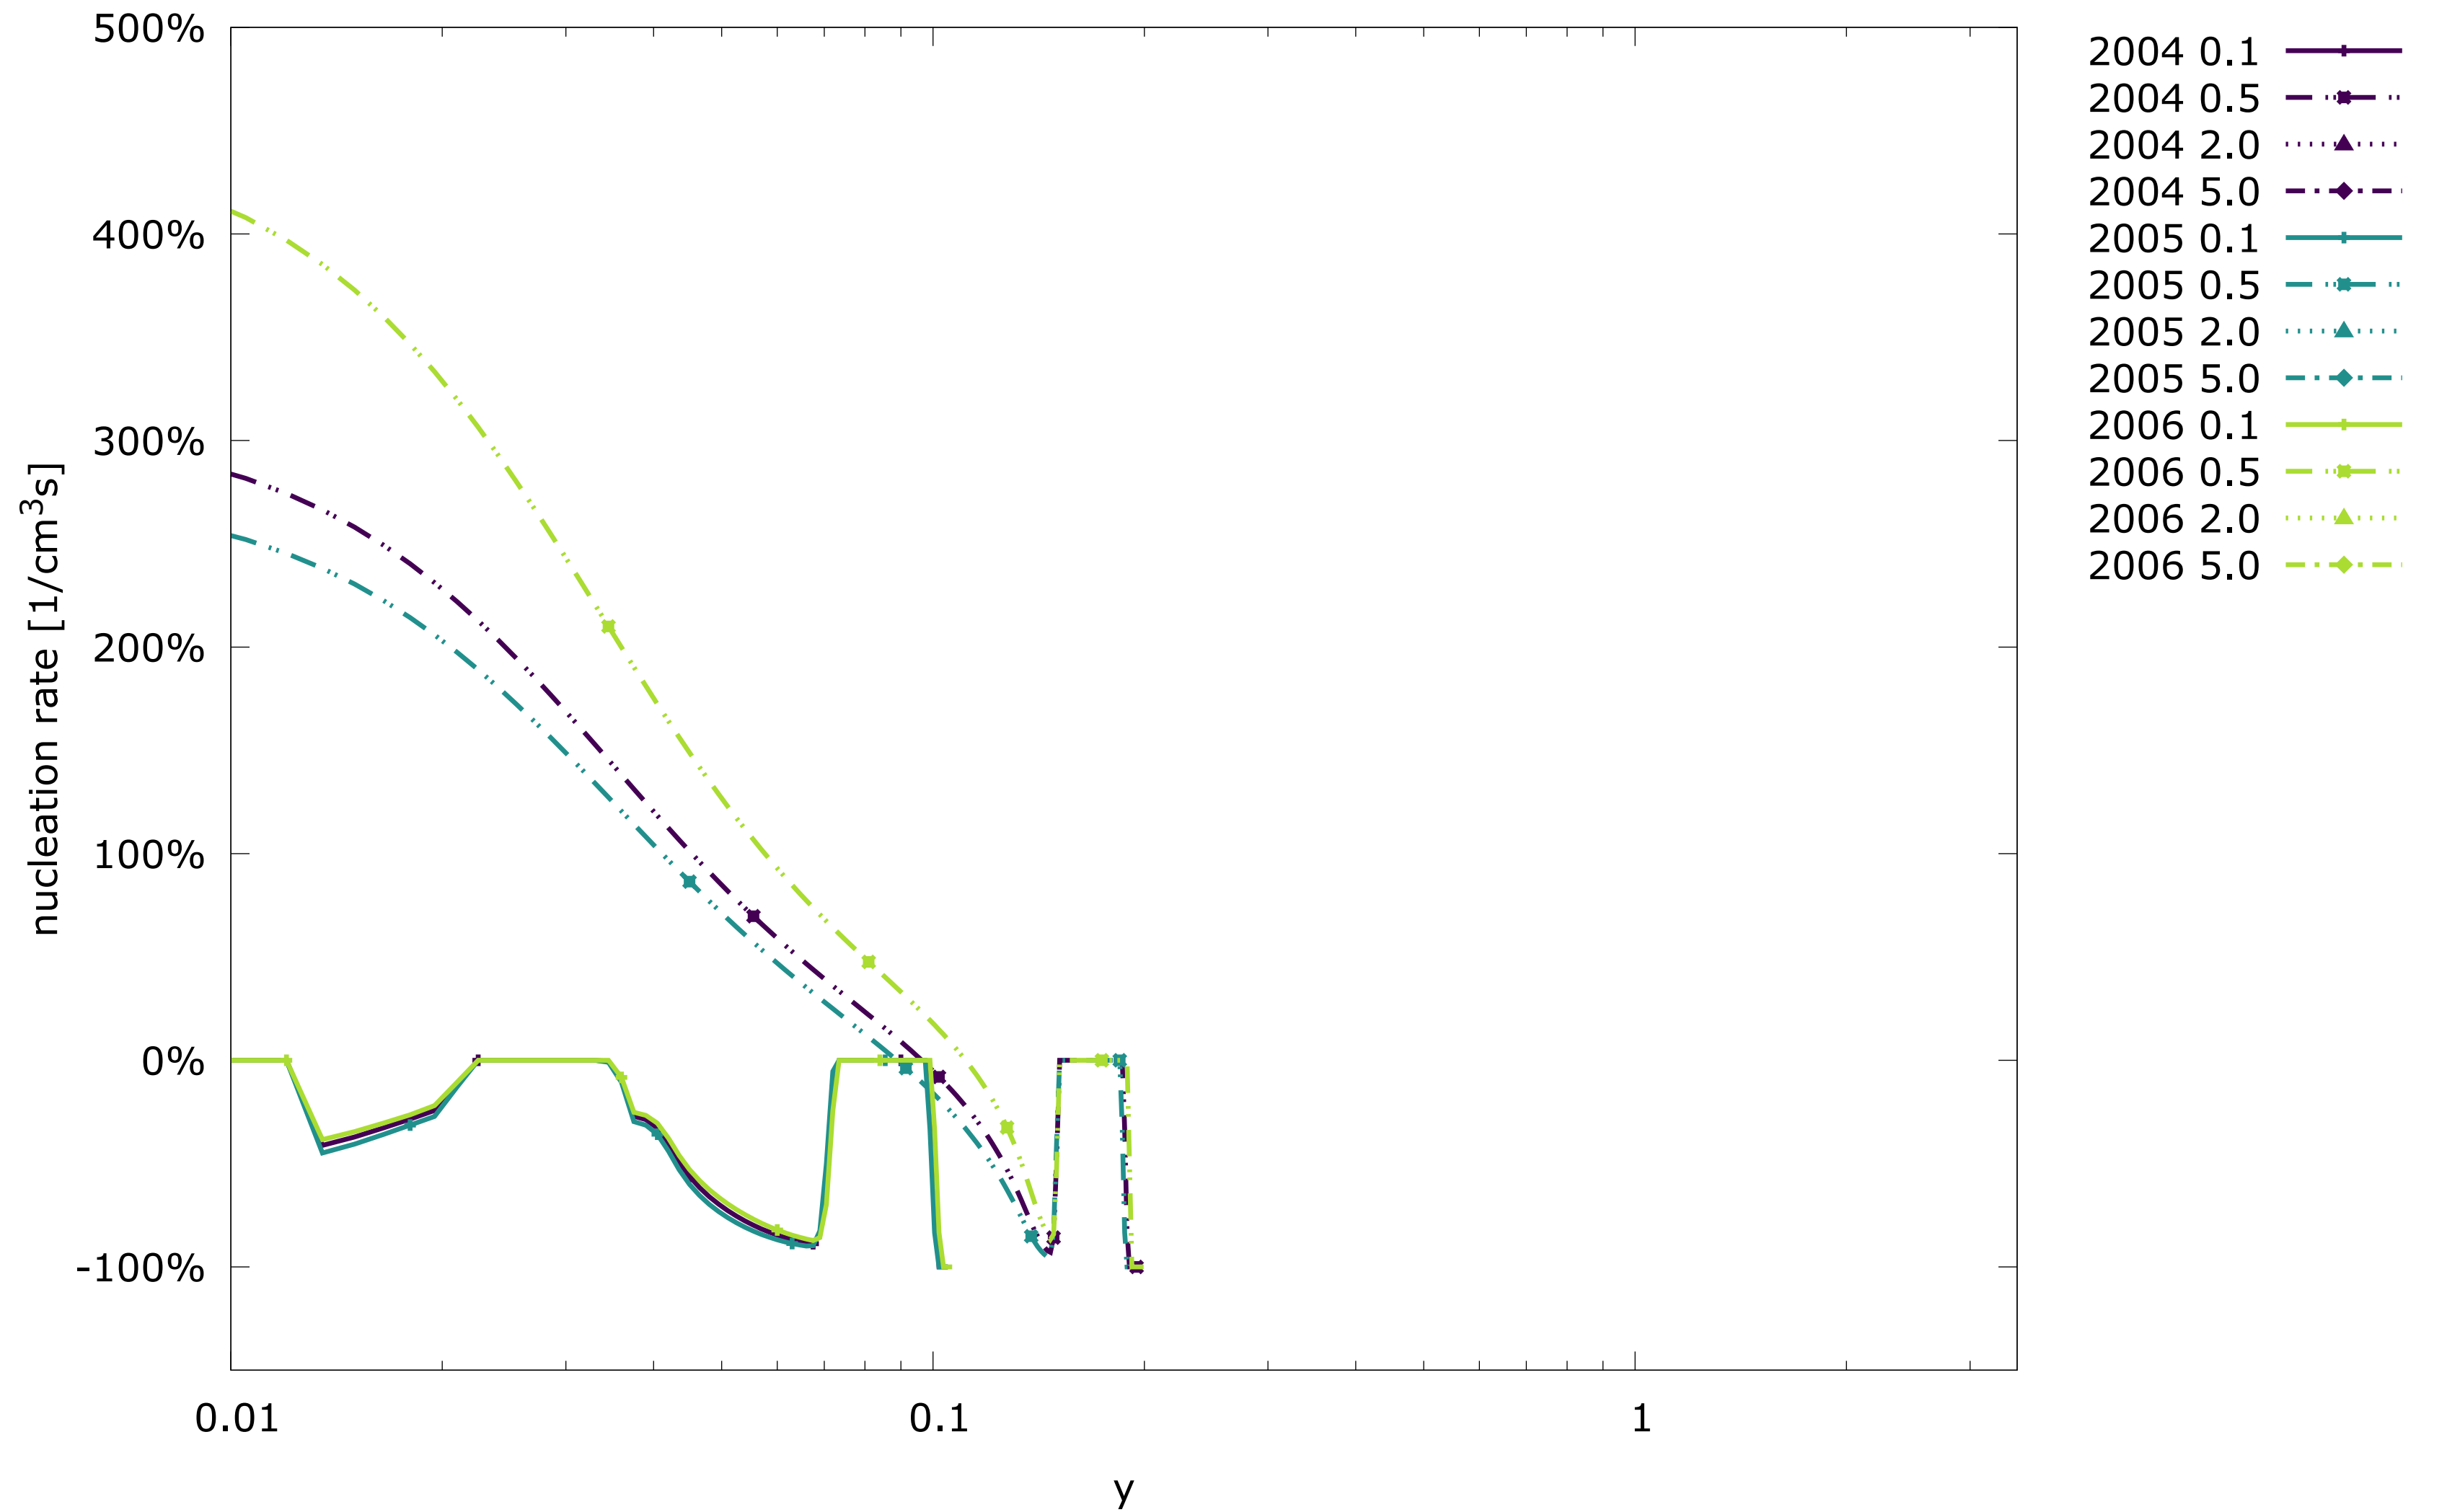

every year every distance polluted  $M_2$

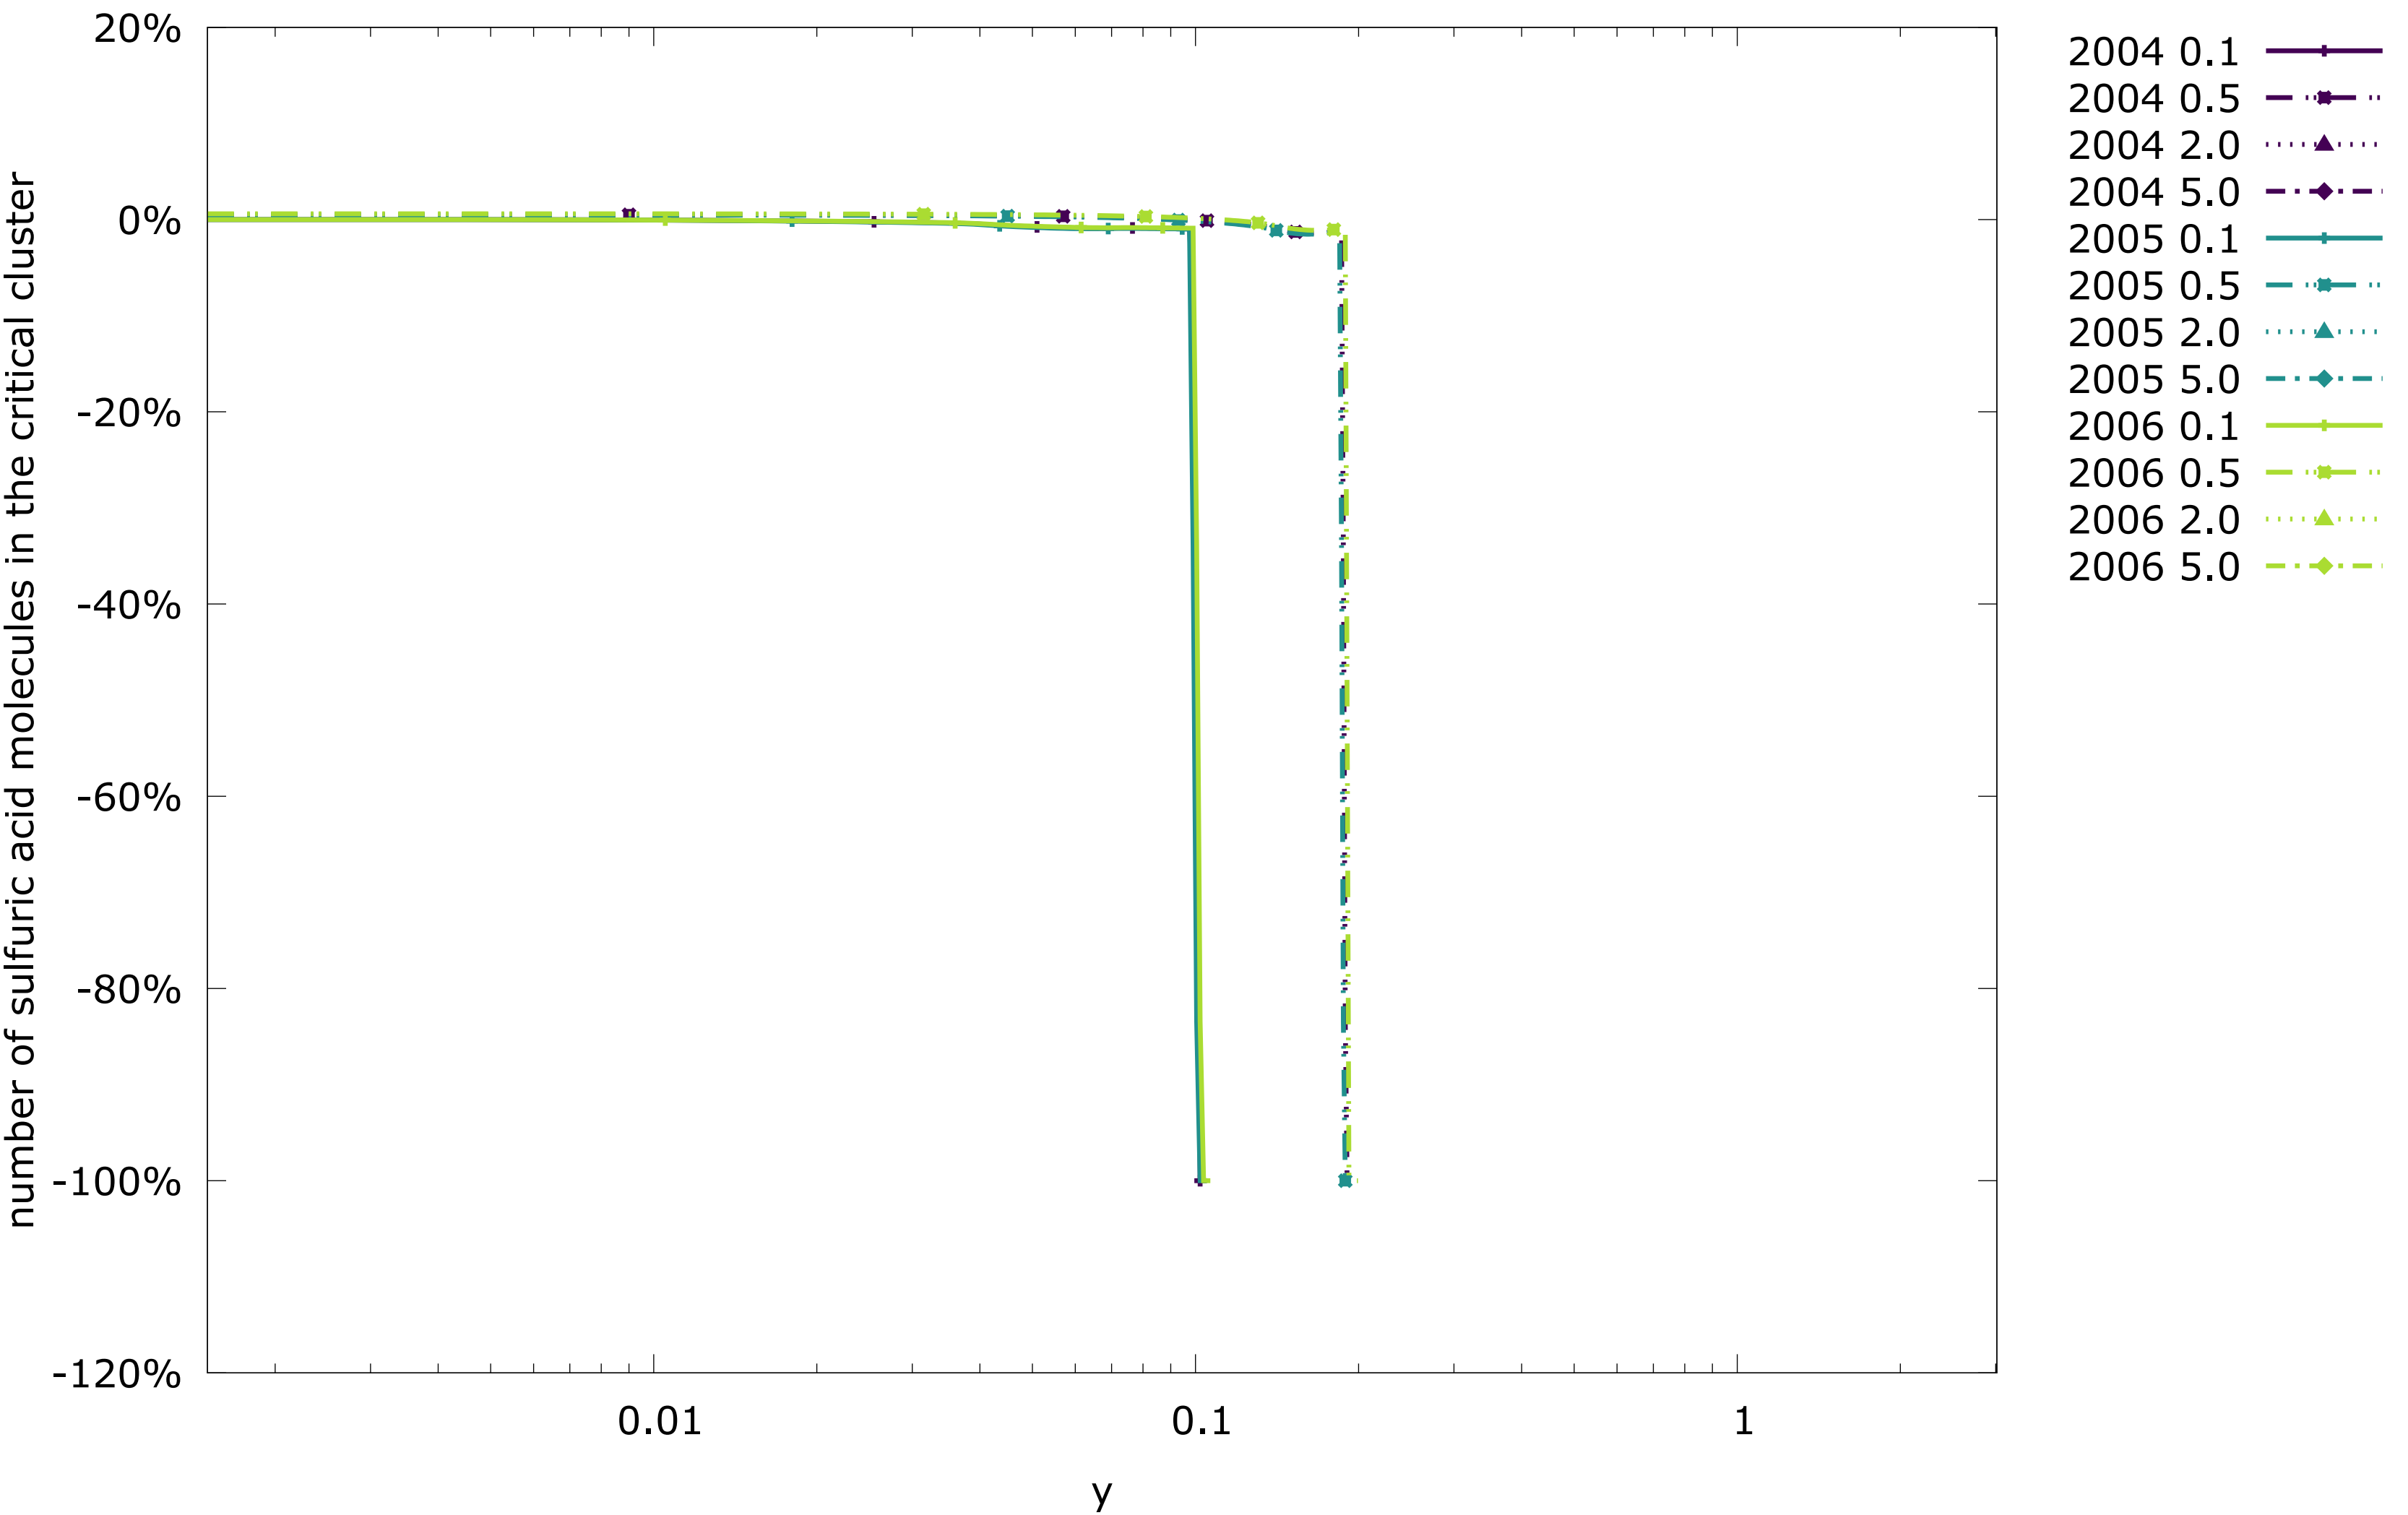

every year every distance polluted relative humidity

every year every distance polluted nucleation rate [ $1/\text{cm}^3\text{s}$ ]

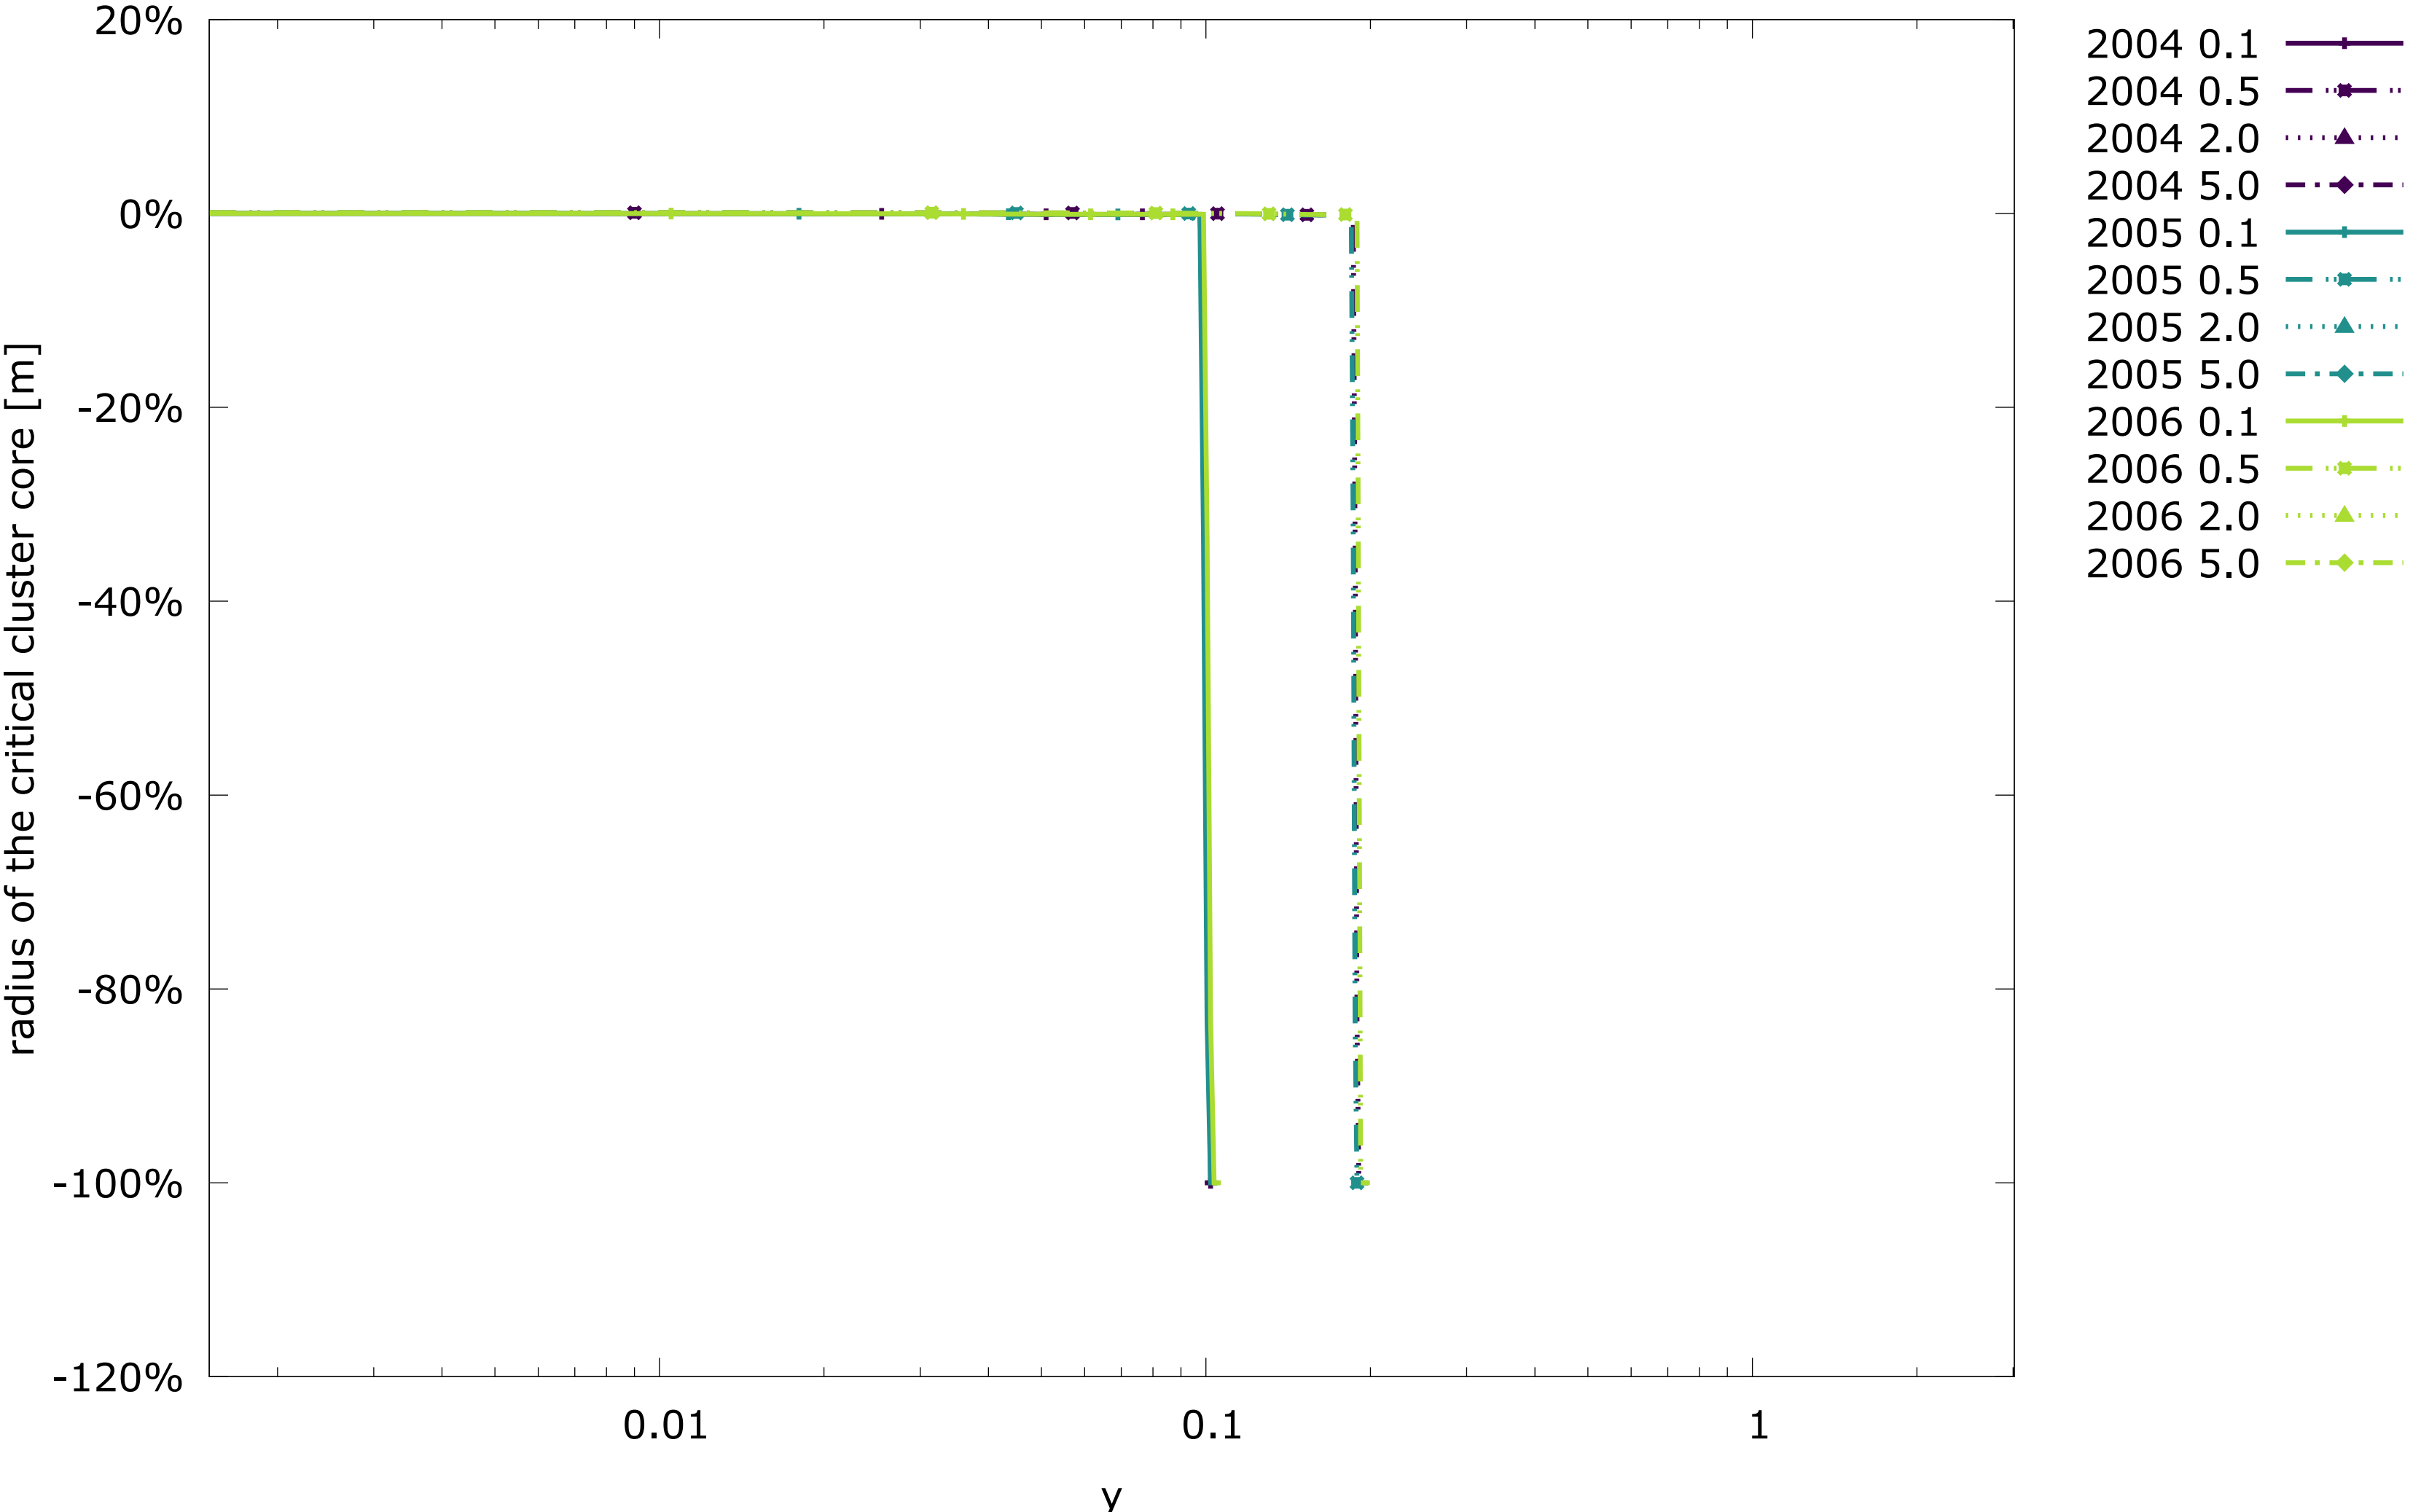

every year every distance polluted number of sulfuric acid molecules in the critical cluster

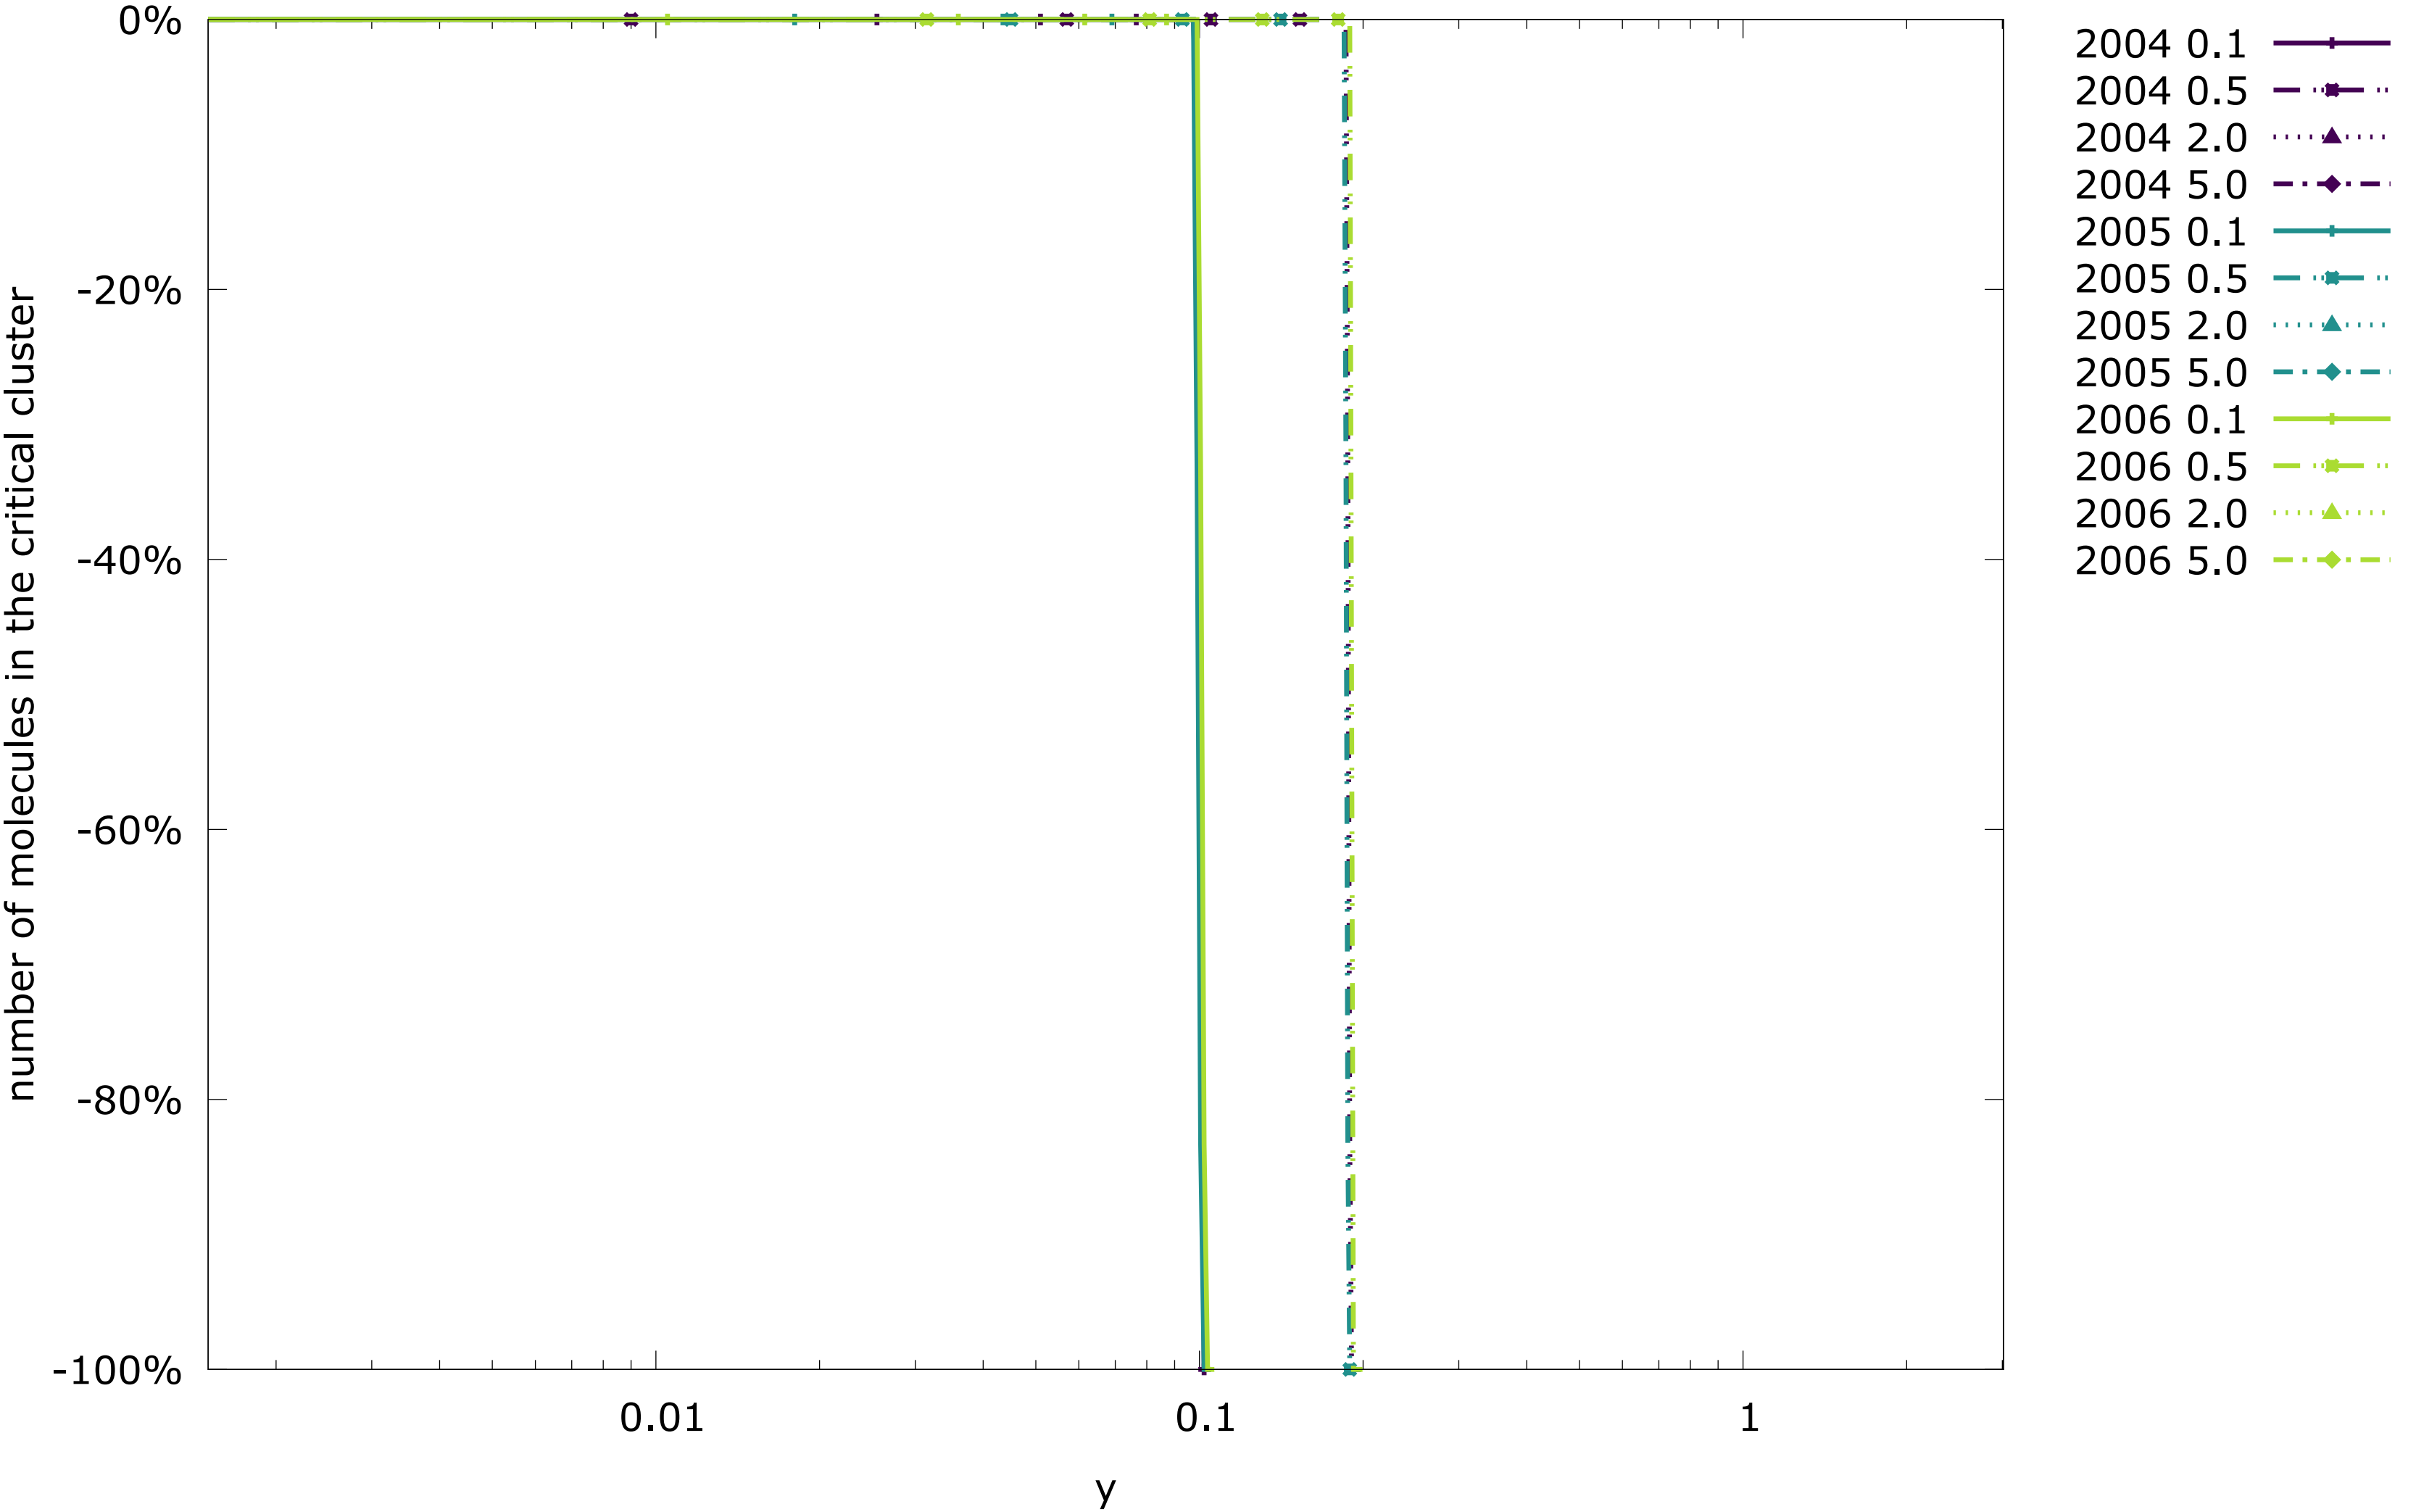

every year every distance polluted radius of the critical cluster core [m]

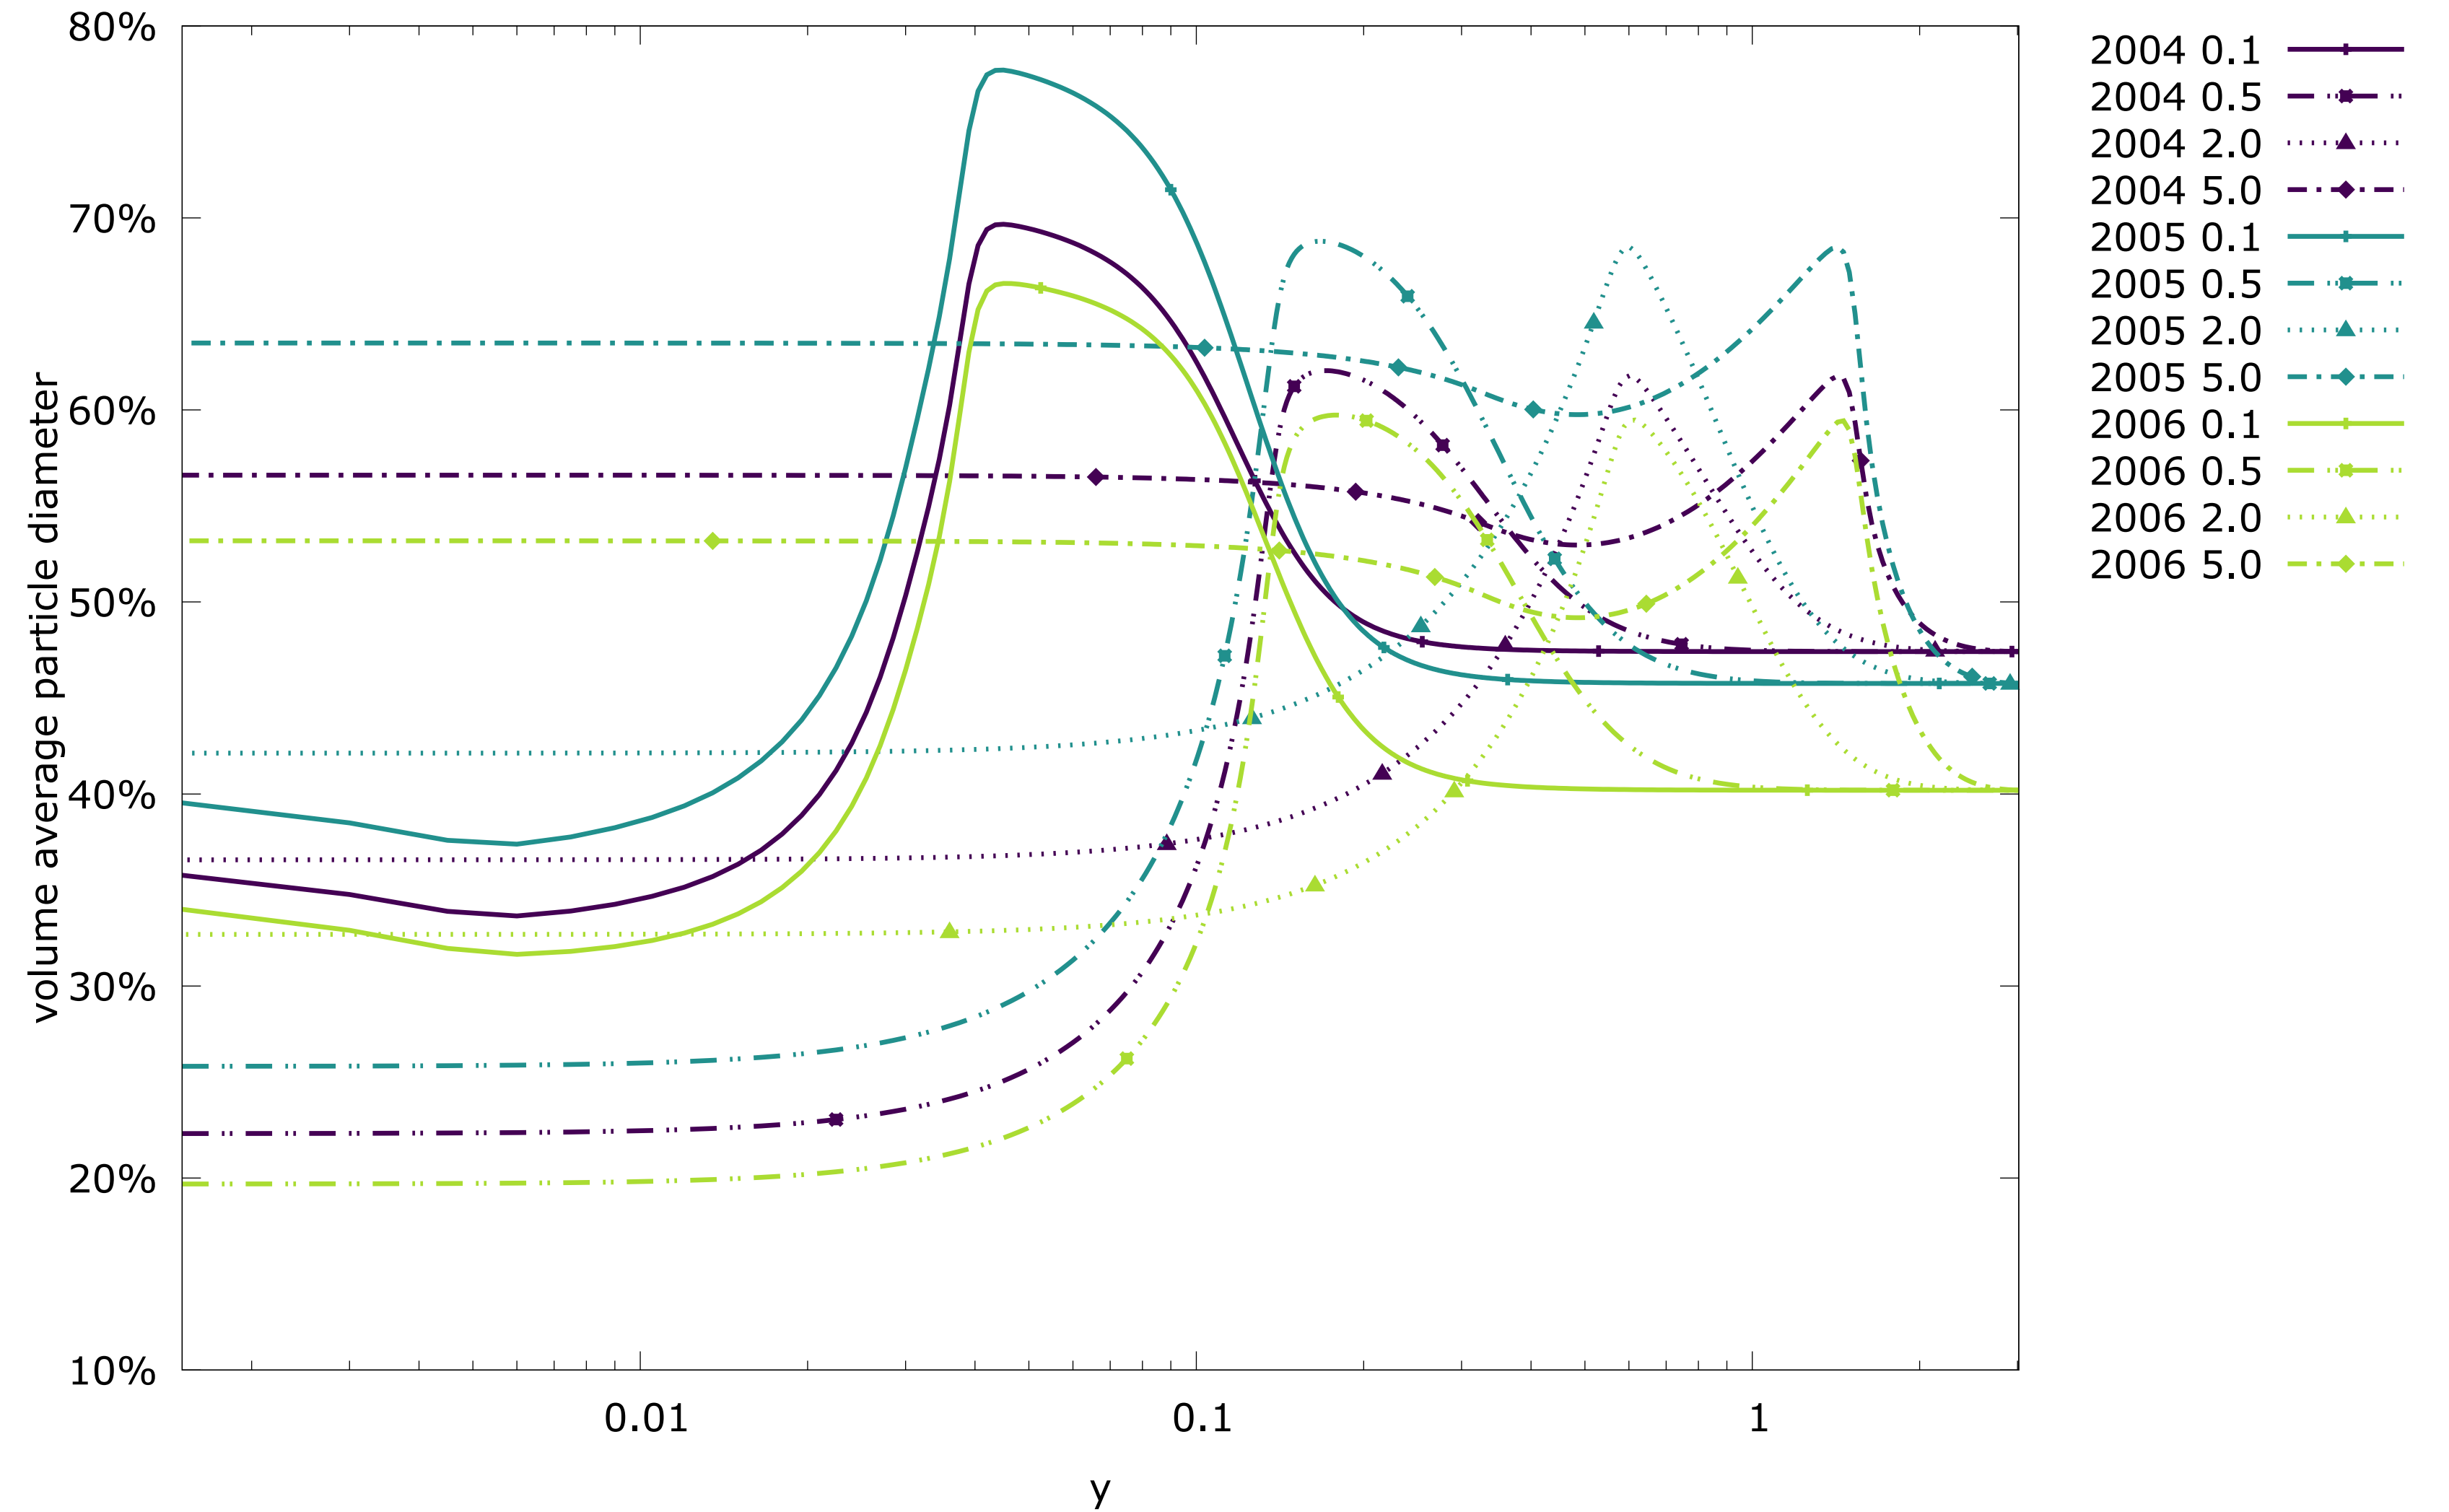

every year every distance polluted number of molecules in the critical cluster

every year every distance polluted volume average particle diameter

every year every distance polluted aerosol surface area
